

The holiday was fantastic. We did a lot of beautiful things and the mates were very nice. At the college there were a lots of Irish, Spanish, French and Italian students. I enjoyed playing with them.

Lilia

Blarney Castle. I liked it because there was a beautiful landscape and it was a sunny day. In this castle there was a stone and if you kiss it you will be lucky in your life.

Cecilia

When we went to the Cliffs of Moher the weather was bad it was raining, foggy and cold. So we went to the museum of the cliffs. Even if we couldn't see the cliffs, we looked at the pictures and postcards. I liked this trip very much.

Arianna

Dear diary,

Today it has been a beautiful day! I got up at 8.00 very late, because the bus to Dublin was at 8.30!!

On the bus I had my breakfast with my best friend Michele. At 10.30 my group and I arrived in Dublin, a beautiful city where there were many historical places. At 11.30 we went to the Guinness storehouse. A fantastic place! 30 minutes later we took beautiful bus! This bus was an Amphibious vehicle. One hour and half later we went to a park to eat our lunch. Two hours later my teacher, my group leader, left us free in a pedestrian area of the city. After visiting this beautiful city we ate our dinner at the college. Then we saw the world cup final match between Germany and Argentina. Good night! See you tomorrow!

Michele

The first day I was excited and happy because it was my first time in Ireland. The first day we had a test and then we went to visit Kilkenny Castle. It was a beautiful and special day and I enjoyed it. In the evening I was very tired because it was a very hard day.

Riccardo

Today is the last day here at the college in Kilkenny. I've been here for two weeks. I'm happy because I will see my parents, my grandma and my grandad, but I'm also sad because I must leave my new friends.

Today we're going back to Italy. I'll go home with my parents and I think when I arrive home there will be a party for me.

Andrea

One day we went to Blarney Castle, in the south of Ireland. There there is a stone and if you kiss it you'll be lucky. But my favourite place was the poison garden, where there were lots of poisonous type of plants. I love plants. In another area of the garden there were one hundred steps and people say that if you close your eyes and go up the steps backwards, all your wishes will be realized.

Costanza.

One evening we went to a typical Irish pub and I enjoyed it because there were dancers dressed with popular costumes and a band who played Irish music. The waitresses were also dancers. The food was very delicious.

Alice

From 3rd to 17th July I was at Kilkenny College in Ireland with my English teacher Mrs. Marabello and some friends. There in the morning we usually had lessons and in the afternoon and in the evening there were lots of activities like sports, games, shows, arts&Crafts, and cookery.

I loved this holiday very much and I hope I'll return to Kilkenny soon.

Rebecca

We arrived at the college in the evening and we had dinner. The next day, we had an entry test to check our level of English. In the afternoon we went to visit Kilkenny Castle.

At night there was the disco, but we didn't want to dance and we played football.

Elena

One day we went to Dunmore Caves. It was a very exciting trip because there were a lots of limestone formations. This cave is very old, in fact the Vikings carried out a massacre of many people. I didn't like the entrance because it was very big and dark. Then we went to visit the cathedral and I liked it very much.

Alessia

This holiday at the college was very interesting . I met fantastic persons from France, Spain and Italy. The most impressive thing was the activities at the college . They were very interesting. On Wednesday and Friday there were arts&crafts and cookery. The last day at the college we did the Olympics. This holiday was fantastic!
